

The crew manual

One website, two faces. The public pages tell producers and Indian partners what we do. The crew pages behind the Google sign in run the business. The investor pages are the ones with rules attached, so they get the most space here.

Public

Anyone with the preview key link

Home and portfolio

Why New Zealand

Wine · Mānuka honey · Whisky · Travel

The client's private page

one link per family · no key, no sign in

Crew

Google sign in · @myaccesspartners.com

Investors · Files

Investors · Rules

CRM · Distributors

Tours · Travel builder

Calculator · Containers

Finance · Home

The orange tiles are the investor pathway. The dark tile on the left is what the client sees. Everything else is the export and travel business.

1 Getting in

1 Open any crew page

For example myaccesspartners.com/investors.html. You get a "Crew and partners" screen.

2 Press "Continue with Google"

Pick your @myaccesspartners.com account. Paul's founder account works too. Any other account is refused.

3 You stay signed in

Until you press Sign out (top right of any crew page) or clear your browser.

Partners and preview visitors

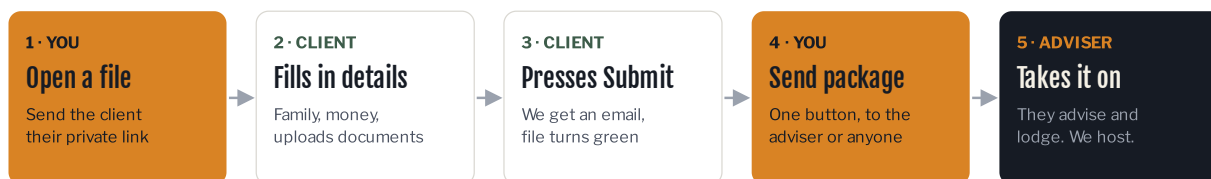

People who are not crew (a producer, Club7, Tusshar) get a link with the key on the end: myaccesspartners.com/?key=.... Ask Paul for it. It opens the public pages only.

Clients

Clients never sign in. Each family gets one private link to their own page. That is all they see.

2 An investor, start to finish

Five steps. The Files page tells you which one you are on and what to do next.

Orange is you. White is the client. Dark is the licensed adviser, who does all the advising.

1 Open a file

Files page, press **+ New file**, type the name and email, press **Open the file**. Press **Copy the invitation email** and paste it into an email to the client. Done. The file now says "Filling in details".

2 The client fills in their page

Nothing for you to do. Their details and documents appear on the file as they go. If it goes quiet for a week, chase them.

3 The client presses Submit

You get an email at hello@myaccesspartners.com. The file turns green and says "Ready to send". Open it, glance at the documents, press **Mark as sighted** on the ones you have looked at.

4 Send the package

On the file, scroll to "3 · Send the package". Choose who from the list (or type any email address), check the ticked documents, press **Send now**. The email is written for you and goes from hello@myaccesspartners.com with the documents attached. It is recorded on the file.

5 The adviser takes it on

From here the licensed adviser talks to the client directly. We host the visit, keep the file tidy and never give an opinion on eligibility.

3

The Files page

Investors, first tab. The list shows every family, what stage they are at and, in plain words, what to do next. Click a row to open the file.

Later

DO THIS NOW

The client has submitted. Check the documents, then send the package.

Go

1 • The client's link

Copy the invitation email
Open in my mail app
Copy the link only

2 • Documents

Still to come: police certificate
Passport · Mark as sighted
Upload one the client emailed us

3 • Send the package

Send to: adviser, lawyer, fund...
Documents tick themselves

Send now

A file, top to bottom. The step strip and the dark "Do this now" bar always tell you where you are. Below the three panels, folded away, are the client's answers, notes and the activity log.

The stages

New → **Filling in details** → **Documents arriving** → **Ready to send** → **Package sent** → **With the adviser**. The site moves the file along by itself as the client and you act. You can override it under "Notes, stage and who looks after it".

Documents

Click a file name to open it (the link works for 10 minutes). **Mark as sighted** means a crew member has looked at it; it shows as "(sighted)" in the package email. **Reject** asks you for a reason and keeps it out of packages.

Close file

Top right. The client's link stops working and the file drops out of the working list. Use it for families who walk away.

Notes

Facts and next actions only. Never write an opinion on whether a family qualifies; that is regulated advice and it is discoverable.

4

Sending a package

A package is a summary of what the client told us plus whichever documents you tick. It can go to anyone: a party from the list or any email address you type.

Choose who

Pick from the list or type an email address

Check the ticks

The right documents for that role tick themselves

Send now

Email written for you, documents attached

Recorded

Who, when, which documents, listed under "Sent so far"

WHO GETS WHAT BY DEFAULT

SEND TO	TICKED FOR YOU	THE EMAIL ASKS THEM TO
Licensed immigration adviser	Everything	Take the family on, confirm the document list, send engagement terms
NZ law firm	Passport, funds ownership, source of wealth, narrative, CV	Advise on the NZ legal side alongside the adviser
Fund manager	Passport, source of funds narrative	Confirm the fund is open, its terms, and that it is still on the Invest NZ list
Indian counsel (Tusshar or "To be appointed")	Passport, PAN, Indian tax returns, funds ownership, source of wealth, narrative	Advise on FEMA, LRS, TCS and Indian tax residency
Accountant	Funds ownership, source of wealth, narrative	Review source of funds; later, the evidence letter
Any email address	Everything not rejected	"Please see the attached file"

GOOD TO KNOW

Press **Preview the email first** if you want to read or edit it before it goes. Over 30 MB the documents go as secure links that last 7 days instead of attachments. Under

"Other ways to send" you can download a zip, copy the text, open your own mail app, or record a send you did by hand.

5 Who we send to

Investors, second tab. This is the list that appears under "Send to" on every file.

1 Pick the role

Licensed immigration advisers, NZ law firms, Invest NZ approved funds, Indian counsel or accountants.

2 Pick the firm or person

Every licensed adviser, law firm and approved fund is already in the list with their published contact details. Tusshar Pawar and "To be appointed" are under Indian counsel.

3 Check and press Add

The form fills itself. Before the first introduction, confirm the adviser's licence on the IAA register or the lawyer's practising certificate on the Law Society register, and put the number in "Licence / reference".

To change someone, edit the row in the table and press Save. Untick Active to hide them from the Send to list without deleting anything.

6

The fund matrix

Investors, third tab. Every fund on the Invest NZ list on one chart. Left is safer, right is riskier, higher is a bigger return the manager says it aims for.

- **Set three things:** what the client wants (safe, balanced, growth), whether they need money back during the visa period, and any sector interest.
- **Read the three cards** above the chart: the highest stated targets that fit. Then the table for the full shortlist.
- **Funds with no stated target** are only in the table, not on the chart. Most venture funds are like this.

THE RULE

The matrix builds a shortlist for the licensed adviser conversation. It is never shown to a client as a recommendation. Targets are the managers' own, unaudited and usually before fees. Check the live Invest NZ list on the day.

The Rules page

Investors · Rules. Everything about how an Indian family gets New Zealand residence by investment, checked against the government sources on 17 September 2026. The sixty second version is at the top; the detail is in 13 numbered sections with a jump menu.

Show amounts in ₹

The button near the top converts every NZ\$ figure on the page into rupees at today's rate, for orientation when talking to a family. Press again to switch back.

28 September 2026

Invest NZ reissues its guidance and fund list on this date. Section 13 has the check again routine. Nothing on the page goes to a client until it has been re-checked after that date, and monthly after.

What we may and may not say

We may

Explain how the site works. Quote the published rules and amounts. Collect documents the client chooses to give us. Introduce licensed advisers, lawyers, funds and Indian counsel. Host the family's visit to New Zealand.

We may not

Say whether a family qualifies. Say which category or fund they should choose. Call a fund "government approved" (it is "on the Invest NZ list"). Say "golden passport". Fill in or lodge the application.

Why: immigration advice in New Zealand may only be given by an adviser licensed by the Immigration Advisers Authority or a New Zealand lawyer. Investment recommendations are regulated financial advice; Agile Strategy holds a FAP licence, Market Access Partners does not. Every email the site writes carries the introducer only wording for this reason.

The other tools, in a line each

PAGE	WHAT IT IS FOR
Home	The business on one page, live from the CRM, finance and container boards. Two containers before Christmas is the goal.
CRM	Every producer we could approach, their status, and the pack we approach them with.
Distributors	The Indian importers and distributors for wine, honey and spirits.
Tours	Every tour a travel partner books, with a producer on each stop and one click notices to them.
Builder	Builds a dated journey for a travel company: flights, transfers, producers, hotels, then the itinerary download.
Calculator	Landed price in India for a product: freight, duty, GST, margin.
Containers	Confirmed and tentative orders filling each container, and the free space still to sell.
Finance	Sales from quoted to paid, our 15% plus 5% take, budget against actual, Xero export.

When something looks wrong

WHAT YOU SEE	WHAT TO DO
"Crew only" after Google sign in	You picked the wrong Google account. Sign out and pick the @myaccesspartners.com one.
The client says their link does not work	Open their file. If it says Closed, the link is dead on purpose. Otherwise copy the link again and resend it; check they are not missing the end of it.
The client's documents are not showing	Press "← All files" and open the file again to refresh it. Files over 25 MB or not PDF, JPG, PNG, HEIC, Word or Excel are refused on the client's side.
"Send now" says email is not configured	The Resend key in Supabase has been removed. Tell Paul. Use "Other ways to send" meanwhile.
The email went but the recipient did not get it	Ask them to check spam for hello@myaccesspartners.com. The send is listed under "Sent so far" with its ID if Paul needs to look it up in Resend.
The rupee button says "placeholder rate"	The live rate could not be fetched. The figure is approximate; refresh the page.
Anything else	Tell Paul what page you were on and what you pressed. Nothing on this site can be broken by clicking around.

WHERE THINGS LIVE (FOR PAUL)

Site files: GitHub Agilestrategy/myaccesspartners, published by Netlify. Database, document vault and the two functions: Supabase project map-crm (Sydney). Email: Resend, domain myaccesspartners.com, keys stored as Supabase secrets. Sign in rule: gate.js in the Netlify edge functions. Preview key: MAP_ACCESS_KEY in Netlify.

Market Access Partners Limited · crew manual · written 18 September 2026 · the site changes, so if a screen does not match this page, the site is right and the manual needs updating.
