

Residence by investment. New Zealand.

Active Investor Plus, explained plainly, and how Market Access Partners hosts the journey.

New Zealand grants residence by investment under the Active Investor Plus visa: NZ\$5 million into approved growth investments for three years, or NZ\$10 million into a balanced portfolio for five. No English test, no age limit, no points, no cap. Citizenship follows only after five years of living here. Market Access Partners introduces families to the licensed advisers, law firms and funds, collects the documents, and hosts the visit. We do not advise.

NZ\$5m

Growth category: held 36 months, only 21 days in New Zealand over the period. What most families choose

NZ\$10m

Balanced category: held 60 months, 105 days in New Zealand, fewer with more invested

4 months

Eighty percent of decisions in principle come back inside this; then six months to invest. 904 applications since April 2025, NZ\$4.94 billion committed

HOW MARKET ACCESS PARTNERS HELPS

Introductions

A licensed immigration adviser or New Zealand lawyer for the application, a New Zealand law firm, an Invest NZ listed fund manager, and Indian counsel for FEMA, LRS and tax residency.

The visit

Hosted in New Zealand: the funds, the cities, the schools and the homes, with our travel and producer network behind it.

One private file

The family fills in one secure page and uploads documents once; the package goes to each adviser with the family's written authorisation.

The India side

We work with your Indian counsel on sequence: residential status, remittance limits, tax collected at source, and timing against the Indian financial year.

WHAT TO KNOW BEFORE ANYONE SAYS YES

- Acceptable investments are decided by Invest New Zealand and Immigration New Zealand: managed funds on the Invest NZ list and approved direct investments. There is no such thing as a government guaranteed fund.
- Only a licensed immigration adviser or a New Zealand lawyer may advise on eligibility. Market Access Partners is an introducer and host.
- A New Zealand passport needs citizenship: five years of residence with real presence (1,350 days) and an English conversation. India does not permit dual citizenship; an Indian who takes a New Zealand passport moves to an OCI card.

Market Access Partners Limited is not a licensed immigration adviser and gives no immigration, legal, tax or financial advice. Eligibility is advised on only by a licensed immigration adviser or New Zealand lawyer; acceptable investments are decided by Invest New Zealand and Immigration New Zealand. Verified against the sources on 17 September 2026.
